

Business Management

OUR SOCIAL RESPONSIBILITY

Corporate Social Responsibility responds to a process of continuous improvement, is an integral management model that incorporates our decisions and their impact, activities we effect on society and the environment, to act for mutual benefit.

It is a voluntary commitment we make to contribute to sustainable development. ESG of our environment beyond compliance with legal requirements.

OUR SUSTAINABILITY POLICIES

Commit to operating on the basis of a socio-environmental management system that permeates our business model for due diligence, social, legal and environmental compliance.

Develop activities that have a positive impact on environmental, social and governance (ESG) issues; with ethical practices focused on the care, protection and restoration of the environment that contribute to and promote the development of local communities.

Starting with design and architecture sustainable where the preservation of spaces Natural, flora, fauna and social bonding are guiding axes to materialize a space of connection and co-creation to awaken to a fuller life between man and nature.
